### Manager's Report.

Manager McStocker was not present, tributed in printed to.m. The following

Mr. McStocke, took enarge at the end of June, 1899, at which time there were 40 acres of cane plan ea, and 50 labo ers and 3 horses at work. There we e on January 1st, 1900, 716 acres of cane planted, and 1,629 laborers employed besides 816 laborers employed by outside contractors. Live stock consists of 402 mules.

The varieties of cane planted are: Lahaina, 487 acres; Yellow Bamboo, 61 acres; Rose Bamboo, 132 acres; Yellow Calcdonia, 36 acres.

In addition there were 2.595 acres cleared and plowed, 1,817 acres cleared ready to plow, and 1,500 acres partly cleared.

The promoters and cio. ed options and daeded to the company 13,000 85 acres in see simple, and 4,032 acres on a 40year lease. Options were still ou stand-ing on 1,569 acres, which was being turned over as fast as the options came due. The company had bought 70 acres and leased 200 acres on its own account. The total area of the plantation is therefore 18 872.25 acres. An additional 500 acres was expected to be developed E F E S S E : . . . on the leased land.

There have been issued 107,329 shares of paid up stock in exchange for land.

BUILDINGS .- Buildings for 1,800 laborers were completed, besides stables for 400 live stock. No further buildings would be required in connection with the first crop, except in connection with the mill.

# First Crop.

The first crop would be 4,000 acres of plant cane; 3,000 on the lower "Kegau" and 1,000 on the upper "Olaa" lands. The Puna Sugar Company had con-tracted to have their first crop of about 500 acres ground at Olas. Other outside planters would probably bring the total first crop area to 5,000 acres. From the appearance of the cane and

the judgment of experts, the first crop estimated at a minimum of 5 tons to the acre, or 25,000 tons in all. Rose bamboo cane 18 months old, cut it 2,000 feet elevation stripped 11 to 13
